

Newsletter N°13 - 03/ 2023

We are delighted to give you the latest news about the ALICE-Trial!

ALICE was launched in early summer 2019 and initially a one-year recruitment period was planned. However, last patient in was end of 2021. We are still overwhelmed by your continuous support despite the difficult time caused by the pandemic. Your passion and interest in the study demonstrate, that it is more important than ever to combat preoperative anemia.

We want to sincerely thank all collaborators for their contributions and efforts in the ALICE-study!

Highlights

Data of the eCRF has been transferred to Prof M Posch, Mrs Lusine Yeghiazaryan and Mrs Daniela Boryshchuk. They are working incredibly hard to check all data for plausibility and to prepare the data for analysis. **We are very grateful for their support.**

Latest results:

So far, 77 centers participated in the study and records of 2787 patients have been entered in the eCRF.

We will update the website soon. Please feel free to contact us, if you have suggestions or would like to add/change information.

**Thank you very much for your continuous support!
We are very excited about the outcome of this study.
With best wishes from the steering committee.**
