# Newsletter N°14 - 10/ 2023

We are delighted to give you the latest news about the ALICE-Trial!

## Highlights

We thank Prof Posch, Mrs Yeghiazaryan and Mrs Daniela Boryshchuk for their incredible work! The primary endpoint of the ALICE study has been analyzed:

1) Prevalence of preoperative anemia
2) Prevalence of the causes of preoperative anemia
3) Effect of preoperative anemia management on hemoglobin level

Next analysis:
3) Effect of preoperative anemia on perioperative outcome

Please let us know if you are interested in certain sub-analysis
