

Newsletter N°5 - 03/ 2021

We are delighted to give you the latest news about the ALICE-Trial!

Highlights

WE HOPE YOU ARE ALL SAFE! Thank you very much for all your support!

Milestones:

Summary:

In total 118 hospitals agreed to participate of which 28 hospitals already recruited patients until now. So far, we've received feedback of 20 hospitals: 1081 patients have been recruited.

THANK YOU!

Your tasks:

- 1) We kindly ask all (!) collaborators to send us an update of the current status
- 2) New Zealand has recently joined ALICE. And received provisional approval from their national ethical review body. They have agreed to a waiver of informed consent as the data collected forms are part of routine patient care. However for full approval they have requested a list of other countries taking part in ALICE where consent is not required for data collection. If this applies to your institution please send us a short notice.
- 3) Do you wish any changes on our webpage? www.alice-trial.com

Please do not hesitate to contact us if you have any questions!
